

Sinako Businesses

Sinako Programme

Sinako provides training and on-going mentoring for women living in rural communities in the Ngqushwa Municipality, Eastern Cape. The women learn about financial management, how to save money (they are all members of Saving Groups), how to identify business opportunities, product development, setting up their business, accounting techniques and marketing. The training moves in tandem with their business development and all the women receive on-going mentoring and support as their businesses grow.

The illustration shows the number and type of businesses being run by 51 women in the Sinako programme.
